Move to Touch Cloud for **secure, agile & scalable cloud computing**

Touch Cloud enables your business to benefit from scalability, agility & ease of access, with flexible costs.

We analyse your actual needs and requirements and take you on the right path to migrate into the cloud – professionally, safely and effectively.

Why choose Touch Cloud?

Business agility

Increase the efficiency of your IT systems – enabling your business to be more responsive to market changes and reduce the time for new launches, helping you bring products and services to market much faster.

Cost efficiency

Eliminate the capital expense of buying hardware, software and setting up and running on-site data centres.

Enhances productivity

Improve collaboration by giving everyone in the business access to centralised data as and when they need it – independent of their location.

Highly scalable

Our Touch Cloud service helps you to scale vertically and horizontally, and based on the demands of users it ensures there is sufficient resource available at all times.

Greater availability & flexibility

Our Touch Cloud service is known for its reliability and 99.99% availability, which means your business can rely on its data to be accessible 24/7.

Improves security & compliance

Touch Cloud security is multi-layered with the front line providing protection from Internet based attacks. The layers below provide encryption, network separacy, key management, strong authentication and security intelligence and when combined provide full service security.

What **sets us apart** from our competitors?

Our approach

Our approach brings together innovative ideas, honest advice and a genuine interest in your business challenges.

Our people

We design, implement, support, manage, and host critical infrastructure across the NHS and wider public sector and business-critical infrastructures in the private sector.

Proven client base

We count amongst our clients an enviable list of recognised brand names, government and not-for-profit organisations.

UK based

Hosted in our Tier 3 data centres in the North West and South East of England ensures your data remains in the UK at all times.

Backed by over 30 years experience

About Intercity Technology

At Intercity Technology we believe in a people first approach to define and launch technology solutions.
